Welcome to your April 2025 edition of GMDN Focus.

GMDN DATABASE TRAINING WEBINAR SUCCESS

Thank you to the more than 150 GMDN members who registered for our GMDN Database Training Webinar on Wednesday, April 30.

During the webinar, attendees gained valuable insights into the GMDN structure, learned how to effectively use its functionalities, and received important account management information.

For those who could not attend, or if you wish to revisit the training, a video recording of the webinar will be available on our website in the coming days in our Training section at this **link**.

We are also excited to announce that another webinar will be held later this year. Keep an eye out for further details, and we look forward to your continued participation.

GMDN AGENCY ATTENDS GS1 UK HEALTHCARE CONFERENCE

Our CEO, Deniz Bruce alongside GMDN Senior Nomenclature Developers, Edward Glenn and Luís Carraça, have attended the GS1 UK Healthcare Conference 2025 in London. The event brought together bring together NHS professionals, healthcare suppliers and manufacturers, and solution providers, to discuss the latest Scan4Safety developments from across the UK.

Part of Scan4Safety is a Unique Device Identification (UDI) programme focused on end-to-end scanning of barcodes, contributing significantly to inventory management by improving supply chain visibility and enhancing patient safety through accurate point-of-care scanning and streamlining data entry processes and documentation. By providing a standardised language and ensuring regulatory compliance, GMDN plays a vital role in the successful implementation of UDI.

Deniz said: "We congratulate GS1 UK for the successful Healthcare Conference. It's a great opportunity to interact with all stakeholders working towards improved patient safety."
