1. GMDN Website - Search - Step-by-Step Guide

This is a Step-by-Step Guide for searching for GMDN Codes using the GMDN website.

The GMDN Search uses a 'browser like' search algorithm to find GMDN Terms using key words.

1. Logon to the GMDN Database using your Username and Password.

2. Click on **Search** on the **Terms** dropdown menu.

2. In the box, type in the keyword(s) for the medical device you are looking for.

Formatting the search text can help narrow down the search. For example:

cardiac OR catheter creates an 'either of the words' filter and will produce over 1,170 results.

cardiac catheter is an 'all of the words' filter and will produce over 110 results.

"cardiac catheter" uses "the exact phrase" filter and will produce about 20 results.

cardiac NOT valve will remove the word 'valve' from the 'cardiac catheter' results.

GMDN Code (Example 12345) will return the relevant GMDN Term.

4. The **Advanced** tab provides additional filters to narrow the search by Term Modification Date.

Specific searches can include 'obsolete' GMDN Terms.

In the example below, the Advance search criteria is looking for all Terms that contain the word 'stent' that have been modified in the 'last 6 months' that will also include 'obsolete' Terms.

Name	Code	Status
Drug-eluting paranasal sinus stent	Active	Shortlist

A bioabsorbable device with a drug coating intended to be implanted into a paranasal sinus (e.g., frontal, sphenoidal, ethmoidal, maxillary) to maintain sinus patency in the treatment of chronic sinusitis. The drug coating is intended to reduce inflammation and polyps to facilitate the separation of sinus mucosal tissues. The device is made of synthetic polymer(s) capable of being degraded and absorbed by body tissues, and is designed to allow for the slow release of the drug coating. It is endoscopically implanted via the nasal passageway; disposable devices associated with implantation may be included.

The results are prioritised according to if the search text is found in the Term Name or Term Definition. The list is presented in Term Name alphabetical order with the priority being when the search text is in the Terms Name and next if the search text is only found in the Term Definition. The search text is highlighted.

By clicking the Term **Details** link, you can see more information belonging to that Term, including a translation of the text, if available.

The screenshot shows the 'Term Details' page for the term 'Abdominal aorta endovascular stent-graft deployment aid'. The page includes the following sections:

- Name:** Abdominal aorta endovascular stent-graft deployment aid
- Definition:** A nonimplantable device designed to aid stability and control of the single-use delivery system during the deployment of an abdominal aorta stent-graft to repair an abdominal aortic aneurysm (AAA). This device, which is a separate attachment and does not have any patient contact, is attached to the AAA stent delivery system handle and may provide the surgeon with better mechanical control and stability during stent deployment, particularly in cases of difficult patient anatomy. It is typically made of moulded plastic and metal, and may be interchanged between delivery systems during a single implant. This is a single-use device.
- Code:** (This field is empty)
- Status:** Active
- Created Date:** 20 Apr 2010
- Modified Date:** 22 Jan 2021
- Reason for modification/obsoletion:** Term has been edited to remove reference to sterility; distinguishing devices solely on sterility difference is being phased out of the GMDN.

At the bottom of the page, there are four buttons: 'Get Code', 'Add to My Shortlist', 'Move to My Archive', and 'Return to My Terms'. A note below the buttons states: 'Note: Terms in "My Archive" do not generate Alerts.'

Translations: A section for selecting a language, with a dropdown menu showing '- Select -'. Below the dropdown are social media sharing icons for Twitter and LinkedIn.

At the bottom of the page, there are links to 'Contact Us', 'Cookie Policy', 'Privacy Policy', 'Licence Agreement', 'Terms of Website Use', 'Copyright Statement', 'Build 2024.1.1', and '© 2024 GMDN Agency Ltd.'

6. To see the 5-digit GMDN Code, you must use your Code Credits. You can do this by clicking the **Get Code** button. Note: Basic Memberships have an allocated 10 Code Credits.

The GMDN Term Name and Code are displayed. These will need to be printed or copied by the user for their records.

The screenshot shows the 'Confirmation' page for the term 'Abdominal aorta endovascular stent-graft deployment aid'. The page includes the following text:

Please copy this code, or print this page.

The code is displayed as: **56295**

At the bottom of the page, there are social media sharing icons for Twitter and LinkedIn, and a footer with links to 'Contact Us', 'Cookie Policy', 'Privacy Policy', 'Licence Agreement', 'Terms of Website Use', 'Copyright Statement', 'Build 2024.1.1', and '© 2024 GMDN Agency Ltd.'

2. GMDN Website - Enquiry – Step-by-Step Guide (Basic membership)

This is a Step-by-Step Guide for submitting an Enquiry for new or modified GMDN Codes using the GMDN website.

If after using the GMDN Search tool a user cannot find a relevant GMDN Term for their product, they are invited to submit an *Enquiry*. The Enquiry process is the only method of seeking assistance from the GMDN Agency in identifying GMDN Terms. The outcome of an *Enquiry* will be one of the following:

- a. The GMDN Agency identifies an existing GMDN Term.
- b. An existing GMDN Term is modified to include the new product's characteristics.
- c. A new GMDN Term is created.

1. Logon to the GMDN Database using your Username and Password.

2. Click on *Enquiry* on the dropdown list in the *Help* menu.

3. The *Enquiry* screen displays all the previous enquiries submitted from the account. This page is also used to monitor progress on all outstanding enquiries. As a Basic member, any Enquiries are charged at £105 per submission.

4. Click on *New Enquiry* to start filling in product details.

All information provided to the GMDN Agency is confidential to us and is subject to current Data Protection Law. For more information, please see our [Privacy Policy](#), found in the footer of all webpages.

The **Medical Device Name**, **Manufacturer**, **Model** and **Reason** are mandatory data fields. This information is used by us to help identify the device but is not necessarily used in the final GMDN Term Name or Definition.

Please also attach a File which contains the product information by using the **Choose File** button. For example, an 'Instruction for Use' (IFU) or product brochure. This is also a mandatory field.

You can also provide a **Catalogue/Reference (REF)** and a relevant URL if applicable; this is not a mandatory field however it may increase the speed of the Enquiry process.

5. At the bottom of the page, Step 2 asks what type of device the enquiry relates to. This is used to determine the next set of questions we ask about the product. There are three options. Select the relevant option and click next.

- General medical device** – where the primary product is a general medical device.
- In Vitro Diagnostic (IVD)** – where an IVD is the primary product.
- Software** – where software is the primary product

a. **General medical device** is for products that are to be used as a medical device only and will ask questions related to that specific technology. Once you have completed the form click next.

b. **In Vitro Diagnostic (IVD)** will ask questions only related to IVDs. Once you have completed the form click next.

c. **Software** is for software-based products only and will ask questions related to that specific technology. Once you have completed the form click next.

6. The **Summary** page is used to provide a final check on the product details prior to submission. Review the summary and when happy with it press submit.
