

Welcome to your September 2026 edition of GMDN Focus.

GMDN AGENCY ATTENDS 30TH IMDRF IN SINGAPORE

The 30th International Medical Device Regulators Forum (IMDRF) brought **Graham Nash, Health Data Strategy Lead**, and **Deniz Bruce, CEO of the GMDN Agency**, to Singapore—where a packed programme and valuable conversations are offering a window into the future of medical device regulation.

You can read the **Blog – Dispatch from Singapore: two days at the heart of global medical device regulation** by Graham Nash at this [link](#).

GMDN AGENCY AT NPAG 2026

Edward Glenn, Senior Nomenclature Lead at the GMDN Agency attended the NHS National Performance Advisory Group (NPAG) 2026 Conference in London this month.

He said: “This year’s NPAG Clinical Engineering Conference focused on key themes shaping the future of healthcare technology: AI, interoperability, the evolving role of the Clinical Engineer, and the importance of common standards. As healthcare becomes increasingly connected, shared data standards are essential.

GMDN will play a key role in this future. Not least in providing the standardised language needed to allow proprietary AI tools the ability to operate reliably and trustworthily.”
